Dear Josh + Ester,
thanks very much for your
warming letter which I appreciate
all the more after being "entirely
ripped from my mother's womb". I'm
looking forward to meeting you both.
Possibly between June + August will
visit Madison with two friends
of ours, Anna Maria Torrance and
Luigi Eschini who are coming to the State
to work with Bernice Davis.

I wanted the reprints rather
soon because I'm teaching genetics and
also giving seminars here + there. The
missing are ✓35/528 -25/450

I'll tell you how things are getting
on in antibody synthesis, if I ever
can get started in this "inferno".

Best to you both,

mel.
